Beams color - yellow

Double Slotted Post

Lag Bolt

18 Inch Post Protector

1. Beam capacities are for uniformly distributed product loads.
2. Beam capacities are based on a deflection specification of beam length/180 or on connector shear capacity, whichever is limiting.
3. Beams over 120" in length should be tied across the middle to prevent beam spread.
4. Beams over 90" that support loose decking should be tied across the middle to prevent beam spread.

***Exceptions to Guarantee: Delays due to acts of God, strikes, trucking service interruptions or international shipments. All orders are subject to credit department approvals. Prices subject to change without notice. Cut off time for orders is 2:00 p.m.. Acknowledged QUICK SHIP orders not subject to price changes.**

Extra discount available for larger jobs.
